Interview Task-1

Design and create an employee joining form with the following fields:

- Employee Name
- Employee Email
- Contact Number
  - Should be exactly 10 digits
- Date of Birth
- Date of Joining
- Employee Code
  - Should be generated automatically
  - Should be at least 4 digits
  - Should be unique
- Date of Joining
  - Should be more than at least 18 years from the date of birth
2. Design and create a list that shows all the details of the employee that have been filled by the form you designed above. The pagination of the form should be from server side.
3. The form should be searchable using email, contact number, name, employee code. The search should happen server side.

Interview Task-2

Design and create a salary master for a company.

Fields:

- Basic
- HRA
- Conveyance
- PF/ESIC
  - Employee contribution is 12% of the total earning
  - Employer contribution will be 12%. (8.33% of the contribution goes to employee pension and remaining to PF)
  - Search for ESIC rules on the internet and implement it in the form as well.
